About This Guide

What This Guide Contains

The Release Notes contain important information on changes to ArjunaCore 4.11.0 since the last release and information on any outstanding issues.

Audience

This guide is most relevant to engineers who are responsible for administering ArjunaCore 4.11.0 installations.

Prerequisites

None

Document Conventions

The following conventions are used in this guide:

Convention	Description
<i>Italic</i>	In paragraph text, <i>italic</i> identifies the titles of documents that are being referenced. When used in conjunction with the Code text described below, italics identify a variable that should be replaced by the user with an actual value.
Bold	Emphasizes items of particular importance.
Code	Text that represents program code.
File > Open	A path to a function or dialog box within an interface. For example, File > Open indicates that you should select the Open function from the file menu.
() and	Parentheses enclose optional items in command syntax. The vertical bar (pipe) separates syntax items in a list of choices. For example, any of the following three items can be entered in this syntax: persistPolicy (Never OnTimer OnUpdate NoMoreOftenThan)
 Note: or :	A note highlights important supplemental information. A warning highlights procedures or information that is necessary to avoid damage to equipment, damage to software, loss of data, or invalid test results.
